Entrepreneurs

The Therapist Warning Entrepreneurs: You Built the Business—but It's Breaking You and Costing You Everything.

Because success means nothing if it costs you yourself.

AUDIENCE – BUSINESS OWNERS & ENTREPRENEURS

For founders, CEOs, and visionaries who are winning on paper but losing in life, they've built the dream everyone admires—yet sacrificed their peace, marriage, and sense of self along the way. Candy Christophe delivers the message every high-achiever needs to hear: you don't have to break to build.

THE CRISIS

Entrepreneurs are burning out behind the brand.

- 72% say their stress is “unmanageable.”
- 56% admit their relationships are suffering because of work.
- 68% experience anxiety or depression tied to business pressure.

They're scaling profits while silently collapsing—leading teams, signing deals, and fighting exhaustion they can't afford to show. **The truth? They're building wealth at the expense of their well-being—and it's not sustainable.**
