Million Dollar CEO + Therapist  
= Real Solutions

## Attention: BUSINESS OWNERS & ENTREPRENEURS

### - You built the business... but is it breaking you?

*"Success doesn't count if you lose your mind, your marriage, or yourself in the process."*

## AUDIENCE

Candy Christophe serves high-capacity leaders—million-dollar business owners, high-earning entrepreneurs, and CEOs—alongside executive teams navigating growth or instability. Her audience includes thought leaders who invest in coaching and development, business couples and co-founders leading together, and organizations focused on retention, culture, and stability during seasons of burnout and rapid change

## THE CRISIS

Business Owners & Entrepreneurs are burning out behind the brand.

- 85% of workers report experiencing burnout or exhaustion.
- 47% have had to take time off for mental-health or stress-related issues.
- 68% report less likely to stay with their employer — meaning stress significantly undermines retention.
- Replacing lost staff is expensive: turnover costs the U.S. economy roughly \$1 trillion annually.
